## **We call to increase Resistance against the Munich NATO “SECURITY” Summit!**

In Munich since 1964 every year periodically The NATO “Security” summit is gathering, which means “the centre of usurping human rights of the peoples, occupation, plunder, massacre and unfair wars”, will meet again for the 56<sup>th</sup> time this year between 14-16 February this year... Once again, they will meet to secure the “capital” and therefore to plan new attacks on the peoples of the world.

### **The Munich "Security" Summit is an important gathering in the fight between imperialists!**

While the peoples' rights of human beings are constantly extorted all over the world, in gender inequality the women and LGBTI + are rapidly drawn to the bottom of social life, while youth is sentenced to more futurelessness; hunger, misery, pillage, unfair wars and immigration are increasing even more. The imperialist powers, who are responsible for all this, gathers in Munich this year as they do every year. Turning the Middle East into a bloodbath through proxy wars, nearly 80 million people fell into migration routes, millions of people lost their lives on the roads, those who caused over 10,000 refugee children enrolled in European countries to evaporate, to suffer millions of women from harassment - rape, to increase the number of homeless people who had to live on the streets, to millions of workers to remain unemployed, and to those who still have a job in slave working conditions, they will once again try to set a road map for the latest war and exploitation policies and arms trade under the name of "security" in Munich.

### **February 16<sup>th</sup> Let's Protest the Summit in Munich, Increase the Peoples Solidarity!**

Although the contradictions between imperialists have now reached a level that cannot be concealed, they can still act together in attacks on the people to sustain their existence... As long as they are able to account the crisis to the people, they can turn them into opportunities for themselves, also by renewing themselves they know they can extend their existence. In recent years, especially European countries; It is not a coincidence that in many parts of the world, racism is promoted / expanded by states, racist right-wing parties are in power or become a power in parliament.

At the "Security" Summit Conference on 14-16 February 2020; They will discuss the allocation of more budgets for NATO, the sale of more weapons, the enhancement of the technological equipment of weapons, by which methods they will transform many geographies of the world, especially in the Middle East, into a bloodbath and how they will account all these attacks to the working class and the oppressed.

NATO never had or will have the security policy for the oppressed peoples. The “security”; it is the security of the imperialist states and their collaborative and dependent states. So, what needs to be understood from this “security”; is the understanding of the security put forward to ensure the continuity of the capitalist-imperialist system. In the Munich War Summit, launched as “security”, there will be a many official from many imperialist and reactionary states, especially the fascist Turkish State. Those who attend this summit are the chief responsible for wars, hunger, occupation in the world.

As ATİK as every year, this year, we will protest this summit, where the plans of the attacks against the people will be made. Ans we call on all democratic forces, anti-fascists, anti-imperialists and individuals to participate in the protest march in Munich on February 16.

**The Munich "Security" Summit is the War Summit, No to War Policies!**

**Down with Imperialism, Fascism and All Kinds of Reactions!**

**Long Live International Solidarity!**
